## NEW EXIT NORMS

# NPS subscribers with corpus up to ₹5L can withdraw entire sum

**FE BUREAU** New Delhi, June 15

NATIONAL PENSION SYSTEM (NPS) subscribers with a corpus of up to ₹5 lakh will now be able to withdraw the entire amount upon superannuation/ exit, instead of investing 40% of the amount in lowyield annuities as for other subscribers, according to a Pension Fund Regulatory and Development Authority (PFRDA) notification.

The pension regulator has also enhanced the entry age into NPS from 65 to 70 and exit age from 70 to 75 for all citizen and corporate models.

Among other changes, it has permitted individuals to sell NPS products to widen retirement plan coverage.

The full withdrawal facility will benefit a section of government sector and private sector subscribers who have joined NPS late in their lives. Earlier, full withdrawal was allowed if a subscriber's NPS corpus was up to ₹2 lakh. With returns from annuities around 5-5.5%, if a subscriber invests 40% of his corpus of ₹2.5 lakh, she will get a paltry ₹400-450/ month. According to extant norms, at the time of exit from NPS, a subscriber gets 60% lump sum in cash and balance 40% must be used to buy annuities.

Since the defined contributory pension system was rolled out from January 1, 2004, to contain the pension bill, about 21.8 lakh central government employees and 52 lakh state government employees are enrolled in the scheme with 82% share in NPS AUM as on April 30, 2021. About 2.82 crore people are enrolled under the Atal Pension Yojana (APY), a government-backed pension scheme for the masses, as on April 30, 2021. The flow of new entrants from the government sector is slowing down due to saturation, and most new entrants are now from corporate sector and APY.

To widen the NPS base, the PFRDA has permitted engagement of individuals who are working as business correspondents or agents within their existing business structure to facilitate the distribution of pension schemes.

## Railways plans ₹56,955-crore spend in five years for signalling, telecom systems

**FE BUREAU** New Delhi, June 15

**INDIAN RAILWAYS IS planning** an investment of ₹56,955 crore over the next five years in modernisation of signalling and telecommunication systems to augment the safety and capacity of the national transporter.

The modernisation will be in the areas of Long Term Evolution (LTE), Optical Fibre System, Train Collision Avoidance System (TCAS), Automatic Block Signalling (ABS), Electronic Interlocking (EI) and Centralised Traffic Control. The Cabinet had announced earlier this month, on June 9, the allocation of 5 MHz spectrum in 700 MHz band for the Railways which will be used for providing LTE based mobile train radio communication and advanced radio network on its route.

The Cabinet had also approved the TCAS to make rail travel safer and faster, envisaging a spend of ₹25,000 crore for these two projects. With an

Fourfold hike

in Jal Jeevan

Mission grant

to Tamil Nadu

The Cabinet had also approved the TCAS to make rail travel safer and faster, envisaging a spend of ₹25,000 crore for these two projects

expanded modernisation plan, the cost of the projects is estimated to be ₹56,955 crore.

The roadmap on providing more modern signalling solutions to enhance the safety and all-round operational efficiency of Railways was given out at a press conference addressed by Sanjeev Mittal, member (infrastructure) of Railway Board and other members of the Board -Aruna Singh, additional member, (telecommunications) and Rahul Agarwal, additional member (signal).

With more signal bandwidth now available to support the objective of improving safety in train operations and generating additional line

capacity, the TCAS has been approved for 37,300 route km, covering important routes in the first phase. The TCAS is an automatic train protection system which works as an aid to loco pilot to prevent human

The Railways plan to boost the capacity to run more trains on existing network with ABS, a solution designed to enhance line capacity and run more trains on existing high density routes. While ABS has already been provided on 3,447 km, the

Railways plan to roll out automatic signalling on around 15,000 Rkm of high density and freight intensive routes in mission mode.

Also, in the pipeline is a boost to the EI systems which are being adopted on a large scale to increase safety and flexibility in train operation and are currently in use at 2,221 stations. The Railways plan to provide further 1,550 EIs in the next three years to enhance safety and efficiency of train

## Record wheat procurement in UP at 53.8 lakh MT

**DEEPA JAINANI** Lucknow, June 15

INDIA'S LARGEST WHEAT producing state, Uttar Pradesh, has surpassed its previous record in wheat purchasing this year.

As of Tuesday, the state has purchased 53.80 lakh metric tonne (MT) of wheat in the ongoing 2021-22 Rabi marketing year, which is about 15% of the total 360 lakh MT estimated wheat production in the state. UP's previous record wheat

purchase was 52.92 lakh MT in

2018-19. Last year, around

31.03 lakh MT wheat was pro-

cured from the farmers in the same period (till June 14, 2020), while total procurement stood at 35.76 lakh MT. "In spite of the tough situation arising from the second wave of the Covid-19 pandemic, we are purchasing almost 1 lakh MT of wheat every day. On June 14, around 1.14 lakh MT was procured

Chauhan said. He said UP has so far purwheat worth chased ₹10,626.91 crore from 12,16,821 farmers.

■ INTERVIEW: TERJE PILSKOG, EVP, Scatec

# 'Retrospective tariff revisions are not investor-friendly'

Norwegian renewables player Scatec has recently signed an agreement with domestic firm Acme Solar for a 50% stake in the latter's upcoming 900 megawatt (MW) power generation assets in Rajasthan. Scatec expects India "to be a key market in the years to come". Terje Pilskog, executive vice president, project development solar and wind, Scatec, tells Anupam **Chatterjee** how the company is planning to consolidate its presence in the country. Edited excerpts.

#### What kind of assets are you looking at in India?

Globally, we want to add 12 gigawatt (GW) of renewable energy assets by the end of 2025, and out of that, a few GWs are expected to be in India. We will prefer taking over projects with short construction periods and have secured power purchase agreements (PPAs) with discoms. More mature projects will definitely be more attractive. However, we are also open to bidding for greenfield projects and develop capacities on our own.

Why did Scatec choose India to expand its base?

The country is targeting a

significant growth in renewable energy capacity by 2030 and is a key growth market for renewables. We are positioning for future tenders within solar, wind and hybrids. We will also look into the prospects of building hydro power projects in the country. We see opportunities to offer various largescale solutions across technologies in India, both based on federal and state tenders, as well as through entering into direct PPAs with corporate offtakers. Global investors look for predictability, and policy reforms should aim towards incentivising the industry.

Several states now want to revise solar and wind tariffs discovered earlier with prices falling in recent auctions. What do you have to say to that?

Retrospective tariff revi-

sions are definitely not investor-friendly and disrupt the calculations developers make while bidding for the project and deploying capital. However, this is something that is sadly happening all over the world. Something similar happened in Spain. One may have to take it into account as one of the risks. We are confident that we will be able to manage the situation if the need arises. If such developments take place, we will legally challenge the decisions and adjust our approach to project planning.

#### Are you also looking to build storage-plus renewableenergy capacities?

Scatec has recently been awarded a 540 MW solar and 225 MW/1,140 MWh battery storage project in South Africa which is one of the largest of its kind in the world. We have shown the capability of building such projects, and if the conditions are right, we can take up similar projects in India as well. However, we want to stick to developing projects and as of now have no plans of building storage or solar equipment manufacturing capacities.

Chennai, June 15

**FE BUREAU** 

THE CENTRAL GOVERN-**MENT** has increased the central grant to Tamil Nadu under the Jal Jeevan Mission fourfold to ₹3,691.21 crore in 2021-22 from ₹921.99 crore in the previous year.The National Jal Jeevan Mission has released ₹614.35 crore to the state as the first tranche, said a release by the ministry of Jal Shakti.

Union minister Gajendra Singh Shekhawat, while approving the fourfold increase, has assured full assistance to the state to provide tap water supply to every rural home by  $20\overline{24}$ .

Of the 1.26 crore households in Tamil Nadu, 40.36 lakh (31.80%) have been provided tap water connections. On August 15, 2019, when the Jal Jeevan Mission was launched, only 21.65 lakh (17.06%) households had tap water supply. In 22 months, 18.70 lakh (14.74%) households have been provided connections, according to the release.

There are still 86.53 lakh households without tap water supply. With the current pace of 16.13 lakh households in 2020-21, to reach the target by 2024, the state needs to increase its pace by 179%, it said.

The state government is yet to present its Annual Action Plan for 2021-22 to ensure tap water supply to every rural household. The National Jal Jeevan Mission has asked the state to finalise and present the plan at the earliest, the statement said.

In 2020-21, Tamil Nadu could draw only ₹544.51 crore of the Centre's grant of ₹921.99 crore. This year, with the four-fold increase in allocation, the unspent balance of ₹377.48 crore, the shortfall of ₹290.79 crore in the state's matching share in 2020-21, and the state's matching share this year, Tamil Nadu has an assured availability of ₹8,428.17 crore under the Jal Ieevan Mission for water supply work, the release said.

#### NOTICE TO SHAREHOLDERS

(Transfer of Equity Shares of the Company to the Investor Education and Protection Fund Authority)

This Notice is published pursuant to the provisions of the Investor Education and Protection Fund Authority (Accounting, Audit Transfer and Refund) Rules, 2016, as amended from time to time ("the Rules")

The Rules, amongst other matters, contain provisions for transfer of all shares in respect of which dividend has not been paid or claimed for seven consecutive years or more, in the name of the Investor Education and Protection Fund (IEPF) Authority.

Adhering to the various requirements set out in the Rules, the Company has, so far, transferred to the IEPF Authority, on respective due dates, all shares in respect of which dividend(s) for the financial year 2012-13 or before had remained unpaid or unclaimed for a period of seven consecutive years or more. The Company has now communicated individually, the concerned shareholders whose shares are liable to be transferred to IEPF Authority during the financial year 2021-22 for taking appropriate action. The complete details of the concerned shareholders whose dividends are unclaimed for seven consecutive years and whose shares are due for transfer to IEPF Authority are being uploaded on the Company's website www.goacarbon.com

In case the dividends are not claimed by the concerned shareholder(s) by 8th October 2021, necessary steps will be initiated by the Company to transfer shares held by the concerned shareholder(s) to IEPF Authority without further notice in the following manner:

In case the shares are held:

% In physical form - New share certificate(s) will be issued and transferred in favour of IEPF Authority on completion of necessary formalities. The original share certificate(s) which stand registered in the name of shareholder will be deemed cancelled and non-negotiable.

% In demat form - The Company shall inform the Depository by way of corporate action for transfer of shares lying in the demat account in favour of IEPF.

The shareholders may note that in the event of transfer of shares and the unclaimed dividends to IEPF, concerned shareholder(s) are entitled to claim the same from IEPF by submitting an online application in the prescribed Web Form IEPF-5 available on the website www.iepf.gov.in and sending a physical copy of the same, duly signed to the Company at its Registered Office along with requisite documents enumerated in Web Form IEPF- 5.

The shareholders may further note that the details of unclaimed dividends and shares of the concerned shareholder(s) uploaded by the Company on its website www.goacarbon.com shall be treated as adequate notice in respect of issue of the new share certificate(s) by the Company for the purpose of transfer of shares to IEPF pursuant to the Rules. Please note that no claim shall lie against the Company in respect of unclaimed dividend and equity shares transferred to the IEPF Authority

In case the shareholders have any queries on the subject matter and the Rules, they may contact our RTA, Link Intime India Private Limited, Unit: Goa Carbon Limited, C-101, 247 Park, L. B. S. Marg, Vikhroli (West), Mumbai 400083; Tel: +91-22-49186270; Email: iepf.shares@linkintime.co.in

#### NEW EXIT NORMS

# NPS subscribers with corpus up to ₹5L can withdraw entire sum

**FE BUREAU** New Delhi, June 15

NATIONAL PENSION SYSTEM (NPS) subscribers with a corpus of up to ₹5 lakh will now be able to withdraw the entire amount upon superannuation/exit, instead of investing 40% of the amount in low-yield annuities as for other subscribers, according to a Pension Fund Regulatory and Development Authority (PFRDA) notification.

The pension regulator has also enhanced the entry age into NPS from 65 to 70 and exit age from 70 to 75 for all citizen and corporate models. Among other changes, it has permitted individuals to sell NPS products to widen retirement plan cover-

The full withdrawal facility

will benefit a section of government sector and private sector subscribers who have joined NPS late in their lives. Earlier, full withdrawal was allowed if a subscriber's NPS corpus was up to ₹2 lakh. With returns from annuities around 5-5.5%, if a subscriber invests 40% of his corpus of ₹2.5 lakh, she will get a paltry ₹400-450/ month. According to extant norms, at the time of exit from NPS, a subscriber gets 60% lump sum in

cash and balance 40% must be used to buy annuities.

Since the defined contributory pension system was rolled out from January 1, 2004, to contain the pension bill, about 21.8 lakh central government employees and 52 lakh state government employees are enrolled in the scheme with 82% share in NPS AUM as on April 30,2021. About 2.82 crore people are enrolled under the Atal Pension Yojana (APY), a government-backed pension scheme for the masses, as on April 30,

The flow of new entrants from the government sector is slowing down due to saturation, and most new entrants are now

from corporate sector and APY. To widen the NPS base, the PFRDA has permitted engagement of individuals who are working as business correspondents or agents within their existing business structure to facilitate the distribution of pension schemes.

"Where the accumulated pension wealth in the Permanent Retirement Account of the subscriber is equal to or less than a sum of five lakh rupees, or a limit as specified by the Authority, the subscriber shall have the option to withdraw the entire accumulated pension wealth without purchasing annuity and upon such exercise of this option, the right of such subscriber to receive any pension or other amount under the National Pension System or from the government or employer, shall extinguish," the PFRDA notification said.

for these two projects. With an

faster, envisaging a spend of ₹25,000 crore for these two projects

The Cabinet had also

expanded modernisation plan, the cost of the projects is estimated to be ₹56,955 crore. The roadmap on providing

more modern signalling solutions to enhance the safety and all-round operational efficiency of Railways was given out at a press conference addressed by Sanjeev Mittal, member (infrastructure) of Railway Board and other members of the Board — Aruna Singh, additional member, (telecommunications) and Rahul Agarwal, additional

member (signal). With more signal bandwidth now available to support the objective of improving safety in train operations and generating additional line capacity, the TCAS has been approved for 37,300 route km, covering important routes in the first phase.

The TCAS is an automatic train protection system which works as an aid to loco pilot to prevent human error.

## Record wheat procurement in UP at 53.8 lakh MT

**DEEPA JAINANI** 

**INDIA'S LARGESTWHEAT** producing state, Uttar Pradesh, has surpassed its previous record in wheat purchasing this year.

As of Tuesday, the state has purchased 53.80 lakh metric tonne (MT) of wheat in the ongoing 2021-22 Rabi marketing year, which is about 15% of the total 360 lakh MT estimated wheat production in the state.

UP's previous record wheat purchase was 52.92 lakh MT in 2018-19. Last year, around 31.03 lakh MT wheat was procured from the farmers in the same period (till June 14, 2020), while total procurement stood at 35.76 lakh MT.

"In spite of the tough situation arising from the second wave of the Covid-19 pandemic, we are purchasing almost 1 lakh MT of wheat every day. On June 14, around 1.14 lakh MT was procured from the farmers," Food and Supply Commissioner Manish Chauhan said. He said UP has so far purchased wheat worth ₹10,626.91 crore from 12,16,821 farmers. "For the first time, the farmers have received direct benefits against the sale of their wheat crops without any delay and cuts under 'One Nation, One MSP, One DBT'. The payment is being directly transferred into the bank accounts of farmers within 72 hours of purchase," Chauhan said.

Sr. General Manager/C&O/Area-1

Lucknow, June 15

Scatec has recently signed an agreement with domestic firm Acme Solar for a 50% stake in the latter's upcoming 900 megawatt (MW) power generation assets in Rajasthan. Scatec expects India "to be a key market in the years to come". Terje Pilskog, executive vice president, project development solar and wind, Scatec, tells Anupam Chatterjee how the company is planning to consolidate its presence in the country. Edited ex-

Norwegian renewables player

What kind of assets are you looking at in India?

cerpts.

Globally, we want to add 12 gigawatt (GW) of renewable energy assets by the end of 2025, and out of that, a few GWs are expected to be in India. We will prefer taking over projects with short construction periods and have secured power purchase agreements (PPAs) with discoms. More mature projects will definitely be more attractive. However, we are also open to

bidding for greenfield projects and develop capacities on our

Why did Scatec choose India to expand its base?

The country is targeting a significant growth in renewable energy capacity by 2030 and is a key growth market for renewables. We are positioning for future tenders within solar, wind and hybrids. We will also look into the prospects of building hydro power projects in the country. We see opportunities to offer various large-scale solutions across technologies in India, both based on federal and state tenders, as well as through

entering into direct PPAs with corporate off-takers.

Global investors look for predictability, and policy reforms should aim towards incentivising the industry.

Several states now want to revise solar and wind tariffs discovered earlier with prices falling in recent auctions. What do you have to say to

Retrospective tariff revisions are definitely not investorfriendly and disrupt the calculations developers make while bidding for the project and deploying capital. However, this is something that is sadly happening all over the world. Something similar happened in Spain. One may have to take it into account as one of the risks. We are confident that we will be able to manage the situation if the need arises. If such developments take place, we will legally challenge the decisions and adjust our approach to project

# Rlys plans ₹56,955-cr spend in 5 yrs for signalling

**FE BUREAU** New Delhi, June 15

INDIAN RAILWAYS IS planning an investment of ₹56,955 crore over the next five years in modernisation of signalling and telecommunication systems to augment the safety and capacity of the national transporter.

The modernisation will be in the areas of Long Term Evolution (LTE), Optical Fibre System, Train Collision Avoidance System (TCAS), Automatic Block Signalling (ABS), Electronic Interlocking (EI) and Centralised Traffic Control. The Cabinet had announced earlier this month, on June 9, the allocation of 5 MHz spectrum in 700 MHz band for the Railways which will be used for providing LTE based mobile train radio communication and advanced radio network on its route.

The Cabinet had also approved the TCAS to make rail travel safer and faster, envisaging a spend of ₹25,000 crore

## Fourfold hike in Jal Jeevan Mission grant to Tamil Nadu

**FE BUREAU** Chennai, June 15

THE CENTRAL GOVERN-**MENT** has increased the central grant to Tamil Nadu under the Jal Jeevan Mission fourfold to ₹3,691.21 crore in 2021-22 from ₹921.99 crore in the previous year. The National Jal Jeevan Mission has released ₹614.35 crore to the state as the first tranche, said a release by the ministry of Jal Shakti.

Union minister Gajendra Singh Shekhawat, while approving the fourfold increase, has assured full assistance to the state to provide tap water supply to every rural home by 2024.

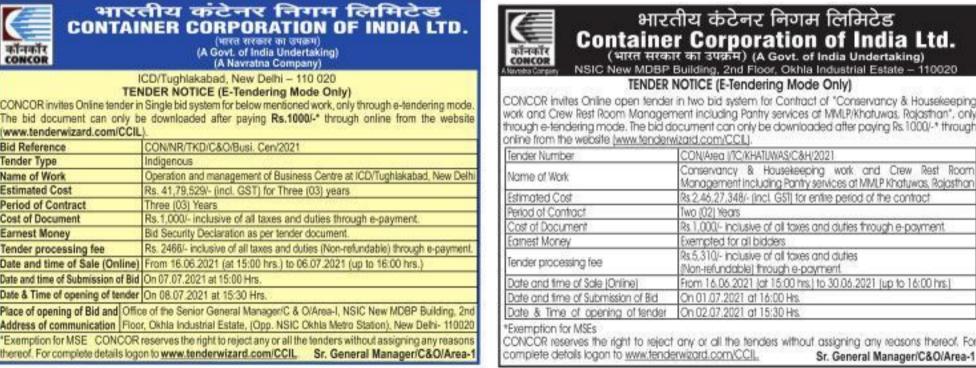

Of the 1.26 crore households in Tamil Nadu, 40.36 lakh (31.80%) have been provided tap water connections. On August 15, 2019, when the Jal Jeevan Mission was launched, only 21.65 lakh (17.06%) households had tap water supply. In 22 months, 18.70 lakh (14.74%) households have been provided connections, according to the release.

There are still 86.53 lakh households without tap water supply. With the current pace of 16.13 lakh households in 2020-21, to reach the target by 2024, the state needs to increase its pace by 179%, it said.

The state government is yet to present its Annual Action Plan for 2021-22 to ensure tap water supply to every rural household. The National Jal Jeevan Mission has asked the state to finalise and present the plan at the earliest, the statement said.

In 2020-21, Tamil Nadu could draw only ₹544.51 crore of the Centre's grant of ₹921.99 crore. This year, with the four-fold increase in allocation, the unspent balance of ₹377.48 crore, the shortfall of ₹290.79 crore in the state's matching share in 2020-21, and the state's matching share this year, Tamil Nadu has an assured availability of ₹8,428.17 crore under the Jal Jeevan Mission for water supply work, the release said.

## Record wheat procurement in UP at 53.8 lakh MT

**DEEPA JAINANI** Lucknow, June 15

INDIA'S LARGEST WHEAT producing state, Uttar Pradesh, has surpassed its previous record in wheat purchasing this year.

As of Tuesday, the state has purchased 53.80 lakh metric tonne (MT) of wheat in the ongoing 2021-22 Rabi marketing year, which is about 15% of the total 360 lakh MT estimated wheat production in the state.

UP's previous record wheat purchase was 52.92 lakh MT in 2018-19. Last year, around 31.03 lakh MT wheat was procured from the farmers in the same period (till June 14, 2020), while total procurement stood at 35.76 lakh MT.

"In spite of the tough situation arising from the second wave of the Covid-19 pandemic, we are purchasing almost 1 lakh MT of wheat every day. On June 14, around 1.14 lakh MT was procured from the farmers," Food and Supply Commissioner Manish Chauhan said.

He said UP has so far purwheat worth chased ₹10,626.91 crore from 12,16,821 farmers.

■ INTERVIEW: TERJE PILSKOG, EVP, Scatec

# 'Retrospective tariff revisions are not investor-friendly'

Norwegian renewables player Scatec has recently signed an agreement with domestic firm Acme Solar for a 50% stake in the latter's upcoming 900 megawatt (MW) power generation assets in Rajasthan. Scatec expects India "to be a key market in the years to come". Terje Pilskog, executive vice president, project development solar and wind, Scatec, tells Anupam **Chatterjee** *how the company is* planning to consolidate its presence in the country. Edited excerpts.

#### What kind of assets are you looking at in India?

Globally, we want to add 12 gigawatt (GW) of renewable energy assets by the end of 2025, and out of that, a few GWs are expected to be in India. We will prefer taking over projects with short construction periods and have secured power purchase agreements (PPAs) with discoms. More mature projects will definitely be more attractive. However, we are also open to bidding for greenfield projects and develop capacities on our own.

Why did Scatec choose India to expand its base?

The country is targeting a

significant growth in renewable energy capacity by 2030 and is a key growth market for renewables. We are positioning for future tenders within solar, wind and hybrids. We will also look into the prospects of building hydro power projects in the country. We see opportunities to offer various largescale solutions across technologies in India, both based on federal and state tenders, as well as through entering into direct PPAs with corporate offtakers. Global investors look for predictability, and policy reforms should aim towards incentivising the industry.

Several states now want to revise solar and wind tariffs discovered earlier with prices falling in recent auctions. What do you have to say to that?

Retrospective tariff revi-

sions are definitely not investor-friendly and disrupt the calculations developers make while bidding for the project and deploying capital. However, this is something that is sadly happening all over the world. Something similar happened in Spain. One may have to take it into account as one of the risks. We are confident that we will be able to manage the situation if the need arises. If such developments take place, we will legally challenge the decisions and adjust our approach to project planning.

Are you also looking to build storage-plus renewableenergy capacities?

Scatec has recently been awarded a 540 MW solar and 225 MW/1,140 MWh battery storage project in South Africa which is one of the largest of its kind in the world. We have shown the capability of building such projects, and if the conditions are right, we can take up similar projects in India as well. However, we want to stick to developing projects and as of now have no plans of building storage or solar equipment manufacturing capacities.

## Fourfold hike in Jal Jeevan Mission grant to Tamil Nadu

Chennai, June 15

**FE BUREAU** 

THE CENTRAL GOVERN-**MENT** has increased the central grant to Tamil Nadu under the Jal Jeevan Mission fourfold to ₹3,691.21 crore in 2021-22 from ₹921.99 crore in the previous year. The National Jal Jeevan Mission has released ₹614.35 crore to the state as the first tranche, said a release by the ministry of Jal Shakti.

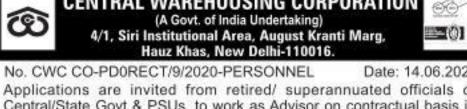

Union minister Gajendra Singh Shekhawat, while approving the fourfold increase, has assured full assistance to the state to provide tap water supply to every rural home by 2024.

Of the 1.26 crore households in Tamil Nadu, 40.36 lakh (31.80%) have been provided tap water connections. On August 15, 2019, when the Jal Jeevan Mission was launched, only 21.65 lakh (17.06%) households had tap water supply. In 22 months, 18.70 lakh (14.74%) households have been provided connections, according to the release.

There are still 86.53 lakh households without tap water supply. With the current pace of 16.13 lakh households in 2020-21, to reach the target by 2024, the state needs to increase its pace by 179%, it said.

The state government is yet to present its Annual Action Plan for 2021-22 to ensure tap water supply to every rural household. The National Jal Jeevan Mission has asked the state to finalise and present the plan at the earliest, the statement said.

In 2020-21, Tamil Nadu could draw only ₹544.51 crore of the Centre's grant of ₹921.99 crore. This year, with the four-fold increase in allocation, the unspent balance of ₹377.48 crore, the shortfall of ₹290.79 crore in the state's matching share in 2020-21, and the state's matching share this year, Tamil Nadu has an assured availability of ₹8,428.17 crore under the Jal Jeevan Mission for water supply work, the release said.

## Record wheat procurement in UP at 53.8 lakh MT

**DEEPA JAINANI** 

**INDIA'S LARGESTWHEAT** producing state, Uttar Pradesh, has surpassed its previous record in wheat purchasing this year.

As of Tuesday, the state has purchased 53.80 lakh metric tonne (MT) of wheat in the ongoing 2021-22 Rabi marketing year, which is about 15% of the total 360 lakh MT estimated wheat production in the state.

UP's previous record wheat purchase was 52.92 lakh MT in 2018-19. Last year, around 31.03 lakh MT wheat was procured from the farmers in the same period (till June 14, 2020), while total procurement stood at 35.76 lakh MT.

"In spite of the tough situation arising from the second wave of the Covid-19 pandemic, we are purchasing almost 1 lakh MT of wheat every day. On June 14, around 1.14 lakh MT was procured from the farmers," Food and Supply Commissioner Manish Chauhan said. He said UP has so far purchased wheat worth ₹10,626.91 crore from 12,16,821 farmers. "For the first time, the farmers have received direct benefits against the sale of their wheat crops without any delay and cuts under 'One Nation, One MSP, One DBT'. The payment is being directly transferred into the bank accounts of farmers within 72 hours of purchase," Chauhan said.

## ■ INTERVIEW: TERJE PILSKOG, EVP, Scatec 'Retrospective tariff revisions are not investor-friendly'

dictability, and policy reforms should aim towards incentivising the industry.

Several states now want to revise solar and wind tariffs discovered earlier with prices falling in recent auctions. What do you have to say to

Retrospective tariff revisions are definitely not investorfriendly and disrupt the calculations developers make while bidding for the project and deploying capital. However, this is something that is sadly happening all over the world. Something similar happened in Spain. One may have to take it into account as one of the risks. We are confident that we will be able to manage the situation if the need arises. If such developments take place, we will legally challenge the decisions and ad-

just our approach to project

#### Rlys plans ₹56,955-cr spend in 5 yrs for signalling mated to be ₹56,955 crore. The Cabinet had also

**FE BUREAU** New Delhi, June 15

INDIAN RAILWAYS IS planning an investment of ₹56,955 crore over the next five years in modernisation of signalling and telecommunication systems to augment the safety and capacity of the national transporter.

The modernisation will be in the areas of Long Term Evolution (LTE), Optical Fibre System, Train Collision Avoidance System (TCAS), Automatic Block Signalling (ABS), Electronic Interlocking (EI) and Centralised Traffic Control. The Cabinet had announced earlier this month, on June 9, the allocation of 5 MHz spectrum in 700 MHz band for the Railways which will be used for providing LTE based mobile train radio communication and advanced radio network on its route. The Cabinet had also ap-

proved the TCAS to make rail travel safer and faster, envisaging a spend of ₹25,000 crore

## Fourfold hike in Jal Jeevan Mission grant to Tamil Nadu

Chennai, June 15

**FE BUREAU** 

THE CENTRAL GOVERN-**MENT** has increased the central grant to Tamil Nadu under the Jal Jeevan Mission fourfold to ₹3,691.21 crore in 2021-22 from ₹921.99 crore in the previous year. The National Jal Jeevan Mission has released ₹614.35 crore to the state as the first tranche, said a release by the ministry of Jal Shakti. Union minister Gajendra

Singh Shekhawat, while approving the fourfold increase, has assured full assistance to the state to provide tap water supply to every rural home by 2024. Of the 1.26 crore house-

holds in Tamil Nadu, 40.36 lakh (31.80%) have been provided tap water connections. On August 15, 2019, when the Jal Jeevan Mission was launched, only 21.65 lakh (17.06%) households had tap water supply. In 22 months, 18.70 lakh (14.74%) households have been provided connections, according to the re-There are still 86.53 lakh

households without tap water supply. With the current pace of 16.13 lakh households in 2020-21, to reach the target by 2024, the state needs to increase its pace by 179%, it

The state government is yet to present its Annual Action Plan for 2021-22 to ensure tap water supply to every rural household. The National Jal Jeevan Mission has asked the state to finalise and present the plan at the earliest, the statement said.

In 2020-21, Tamil Nadu could draw only ₹544.51 crore of the Centre's grant of ₹921.99 crore. This year, with the four-fold increase in allocation, the unspent balance of ₹377.48 crore, the shortfall of ₹290.79 crore in the state's matching share in 2020-21, and the state's matching share this year, Tamil Nadu has an assured availability ₹8,428.17 crore under the Jal Jeevan Mission for water supply work, the release said.

Record wheat procurement in UP at 53.8 lakh MT

**DEEPA JAINANI** 

**INDIA'S LARGESTWHEAT** producing state, Uttar Pradesh, has surpassed its previous record in wheat purchasing this year.

As of Tuesday, the state has purchased 53.80 lakh metric tonne (MT) of wheat in the ongoing 2021-22 Rabi marketing year, which is about 15% of the total 360 lakh MT estimated wheat production in the state.

UP's previous record wheat purchase was 52.92 lakh MT in 2018-19. Last year, around 31.03 lakh MT wheat was procured from the farmers in the same period (till June 14, 2020), while total procurement stood at 35.76 lakh MT.

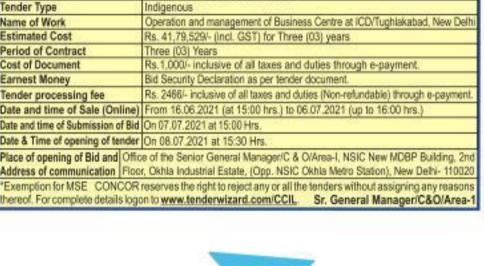

"In spite of the tough situaprocured from the farmers," Food and Supply Commissioner ferred into the bank accounts of

Lucknow, June 15

tion arising from the second wave of the Covid-19 pandemic, we are purchasing almost 1 lakh MT of wheat every day. On June 14, around 1.14 lakh MT was Manish Chauhan said. He said UP has so far purchased wheat worth ₹10,626.91 crore from 12,16,821 farmers. "For the first time, the farmers have received direct benefits against the sale of their wheat crops without any delay and cuts under 'One Nation, One MSP, One DBT'. The payment is being directly transfarmers within 72 hours of purchase," Chauhan said.

■ INTERVIEW: TERJE PILSKOG, EVP, Scatec

# 'Retrospective tariff revisions are not investor-friendly'

Norwegian renewables player Scatec has recently signed an agreement with domestic firm Acme Solar for a 50% stake in the latter's upcoming 900 megawatt (MW) power generation assets in Rajasthan. Scatec expects India "to be a key market in the years to come". Terje Pilskog, executive vice president, project development solar and wind, Scatec, tells Anupam Chatterjee how the company is planning to consolidate its presence in the country. Edited excerpts.

What kind of assets are you looking at in India?

Globally, we want to add 12 gigawatt (GW) of renewable energy assets by the end of 2025, and out of that, a few GWs are expected to be in India. We will prefer taking over projects with short construction periods and have secured power purchase agreements (PPAs) with discoms. More mature projects will definitely be more attractive. However, we are also open to

IFCI FACTORS

bidding for greenfield projects and develop capacities on our

Why did Scatec choose India to expand its base?

The country is targeting a significant growth in renewable energy capacity by 2030 and is a key growth market for renewables. We are positioning for future tenders within solar, wind and hybrids. We will also look into the prospects of building hydro power projects in the country. We see opportunities to offer various large-scale solutions across technologies in India, both based on federal and state tenders, as well as through

able energy capacity by 2030 and is a key growth market for renewables. We are positioning for future tenders within solar, wind and hybrids. We will also look into the prospects of building hydro power projects in the country. We see opportunities to offer various largescale solutions across technologies in India, both based on federal and state tenders, as well as through entering into direct PPAs with corporate offtakers. Global investors look for predictability, and policy reforms should aim towards incentivising the industry.

Several states now want to revise solar and wind tariffs discovered earlier with prices falling in recent auctions. What do you have to say to that?

Retrospective tariff revisions are definitely not investor-friendly and disrupt the calculations developers make while bidding for the project and deploying capital. However, this is something that is sadly happening all over the world. Something similar happened in Spain. One may have to take it into account as one of the risks. We are confident that we will be able to manage the situation if the need arises. If such developments take place, we will legally challenge the decisions and adjust our approach to project planning.

Are you also looking to build storage-plus renewable-energy capacities?

Scatec has recently been awarded a 540 MW solar and 225 MW/1,140 MWh battery storage project in South Africa, which is one of the largest of its kind in the world. We have shown the capability of building such projects, and if the conditions are right, we can take up similar projects in India as well. However, we want to stick to developing projects and as of now have no plans of building storage or solar equipment manufacturing capacities.

## Coal India to close down 23 unviable mines

**COAL INDIA (CIL)** has decided to close down 23 unviable mines and it would help save the company around ₹500 crore considering all costs, officials said on Tuesday.

The world's largest miner has shut down 82 such mines in the last three-four years. The 23 mines, comprising open cast and underground ones, to be closed down were identified in the last fiscal, officials said.

Underground mines are a major focus for closures as they are not remunerative. Some 158 underground mines employ 43% of the workforce but contribute only 5% of the total production, they said.

"Action is being taken to close the unviable mines in CIL in a phased manner. Production from 11 such underground mines has already been suspended," an official said.

The dry fuel major was also engaging Mine Developer and Operator (MDOs) in greenfield projects. It plans to engage MDOs for 15 projects -10open cast and five underground — with a combined total targeted capacity of about 160 million tonne per year (MTY), officials said.

# Railways plans ₹56,955-crore spend in five years for signalling, telecom systems

**FE BUREAU** New Delhi, June 15

**INDIAN RAILWAYS IS** planning an investment of ₹56,955 crore over the next five years in modernisation of signalling and telecommunication systems to augment the safety and capacity of the national transporter.

The modernisation will be in the areas of Long Term Evolution (LTE), Optical Fibre System, Train Collision Avoidance System (TCAS), Automatic Block Signalling (ABS), Electronic Interlocking (EI) and Centralised Traffic Control. The Cabinet had announced earlier this month, on June 9, the allocation of 5 MHz spectrum in 700 MHz band for the Railways which will be used for providing LTE based mobile train radio communication and advanced radio network on its route.

The Cabinet had also ap-

The Cabinet had also approved the TCAS to make rail travel safer and faster, envisaging a spend

of ₹25,000 crore for these two projects

proved the TCAS to make rail travel safer and faster, envisaging a spend of ₹25,000 crore for these two projects. With an expanded modernisation plan, the cost of the projects is estimated to be ₹56,955 crore.

The roadmap on providing more modern signalling solutions to enhance the safety and all-round operational efficiency of Railways was given out at a press conference addressed by Sanjeev Mittal, member (infrastructure) of Railway Board and other members of the Board — Aruna Singh, additional mem-

ber, (telecommunications) and Rahul Agarwal, additional member (signal).

With more signal bandwidth now available to support the objective of improving safety in train operations and generating additional line capacity, the TCAS has been approved for 37,300 route km, covering important routes in the first phase. The TCAS is an automatic train protection system which works as an aid to loco pilot to prevent

The Railways plan to boost the capacity to run more trains on existing network with ABS, a solution designed to enhance line capacity and run more trains on existing high density routes. While ABS has already been provided on 3,447 km, the Railways plan to roll out automatic signalling on around 15,000 Rkm of high density and freight intensive routes in mission mode.

Also, in the pipeline is a boost to the EI systems which are being adopted on a large scale to increase safety and flexibility in train operation and are currently in use at 2,221 stations. The Railways plan to provide further 1,550 EIs in the next three years to enhance safety and efficiency of train operations.

The five-year investment will also include covering more routes with OFC based system. Already, 92% route of the Railways is covered by the OFC which is used for the national transporter's internal communication. While Wi-Fi facility has been extended to 6,002 stations, the 101 balance feasible stations, of which 70% are in rural areas, will also be covered. The CCTV system to improve security has been provided at 801 stations and balance are also planned.

# Record wheat procurement in UP at 53.8 lakh MT

**DEEPA JAINANI** Lucknow, June 15

**INDIA'S LARGESTWHEAT** producing state, Uttar Pradesh, has surpassed its previous record in

wheat purchasing this year. As of Tuesday, the state has purchased 53.80 lakh metric tonne (MT) of wheat in the ongoing 2021-22 Rabi marketing year, which is about 15% of the total 360 lakh MT estimated wheat production in the state.

UP's previous record wheat purchase was 52.92 lakh MT in 2018-19. Last year, around 31.03 lakh MT wheat was procured from the farmers in the

same period (till June 14, 2020), while total procurement stood at 35.76 lakh MT.

"In spite of the tough situation arising from the second wave of the Covid-19 pandemic, we are purchasing almost 1 lakh

MT of wheat every day. On June

procured from the farmers," Food and Supply Commissioner Manish Chauhan said. He said UP has so far pur-

14, around 1.14 lakh MT was

wheat ₹10,626.91 crore from 12,16,821 farmers. "For the first time, the farm-

ers have received direct benefits against the sale of their wheat crops without any delay and cuts under 'One Nation, One MSP, One DBT'. The payment is being directly transferred into the bank accounts of farmers within 72 hours of purchase," Chauhan said.

Chauhan said an increase in

the number of purchase centres high MSP and transparency in procurement have contributed to the all-time high purchase. Besides, this year the chief minister has assured farmers that the government has not fixed any target for wheat procurement, and the process will continue till the farmers want to sell their produce. The last date of procure-

ment was initially set as June 15. The state government has also introduced electronic point of purchase machines to eliminate middlemen and ensure transparency in the pur-

chase of wheat.

## Fourfold hike in Jal Jeevan Mission grant to Tamil Nadu

Chennai, June 15

**FE BUREAU** 

THE CENTRAL GOVERN-**MENT** has increased the central grant to Tamil Nadu under the Jal Jeevan Mission fourfold to ₹3,691.21 crore in 2021-22 from ₹921.99 crore in the previous year. The National Jal Jeevan Mission has released ₹614.35 crore to the state as the first tranche, said a release by the ministry of Jal Shakti. Union minister Gajendra

Singh Shekhawat, while approving the fourfold increase, has assured full assistance to the state to provide tap water supply to every rural home by 2024.

Of the 1.26 crore households in Tamil Nadu, 40.36 lakh (31.80%) have been provided tap water connections. On August 15, 2019, when the Jal Jeevan Mission was launched, only 21.65 lakh (17.06%) households had tap water supply. In 22 months, 18.70 lakh (14.74%) households have been provided connections, according to the release.

There are still 86.53 lakh households without tap water supply. With the current pace of 16.13 lakh households in 2020-21, to reach the target by 2024, the state needs to increase its pace by 179%, it

The state government is yet to present its Annual Action Plan for 2021-22 to ensure tap water supply to every rural household. The National Jal Jeevan Mission has asked the state to finalise and present the plan at the earliest, the statement said.

In 2020-21, Tamil Nadu could draw only ₹544.51 crore of the Centre's grant of ₹921.99 crore. This year, with the four-fold increase in allocation, the unspent balance of ₹377.48 crore, the shortfall of ₹290.79 crore in the state's matching share in 2020-21, and the state's matching share this year, Tamil Nadu has an assured availability of ₹8,428.17 crore under the Jal Jeevan Mission for water supply work, the release said.

## Dalmia Bharat Sugar to double ethanol-making capacity by 2022

**FE BUREAU** New Delhi, June 15

**DALMIA BHARAT SUGAR** and Industries on Tuesday said it will increase its ethanol manufacturing capacity to 15 crore litre per annum from the current 8 crore litre starting January 2022.

The announcement closely

follows the government's decision to meet the target of 20% ethanol blending in petrol by 2025. Earlier, the target was set for 2030 and the current ethanol blending level in petrol is around 8.5%. With this capacity expansion, Dalmia Bharat Sugar will divert around 1.5 lakh tonne of sugar for ethanol production, compared with 60,000 tonne now, the

IFCI FACTORS

No.

norms, the sugar manufacturers will now be able to divert that sugar for ethanol purposes," the company added.

Under the Ethanol Blended Petrol (EBP) programme, the government has already reintroduced the administered price mechanism for ethanol procurement, allowing production from multiple feedstock like heavy molasses, sugarcane juice, sugar, sugar syrup, damaged foodgrain, maize and surplus rice stocks with Food Corporation of India. The sugar mills and distilleries are free to set up ethanol plants after obtaining statutory clearances and the government has already notified an interest subvention scheme to assist setting up of these plants.

#### NEW EXIT NORMS

# NPS subscribers with corpus up to ₹5L can withdraw entire sum

**FE BUREAU** New Delhi, June 15

NATIONAL PENSION SYSTEM (NPS) subscribers with a corpus of up to ₹5 lakh will now be able to withdraw the entire amount upon superannuation/ exit, instead of investing 40% of the amount in lowyield annuities as for other subscribers, according to a Pension Fund Regulatory and Authority Development (PFRDA) notification.

The pension regulator has also enhanced the entry age into NPS from 65 to 70 and exit age from 70 to 75 for all citizen and corporate models.

Among other changes, it has permitted individuals to sell NPS products to widen retirement plan coverage.

The full withdrawal facility will benefit a section of government sector and private sector subscribers who have joined NPS late in their lives. Earlier, full withdrawal was

allowed if a subscriber's NPS corpus was up to ₹2 lakh. With returns from annuities around 5-5.5%, if a subscriber invests 40% of his corpus of ₹2.5 lakh, she will get a paltry ₹400-450/ month. According to extant norms, at the time of exit from NPS, a subscriber gets 60% lump sum in cash and balance 40% must be used to buy annuities.

Since the defined contributory pension system was rolled out from January 1, 2004, to contain the pension bill, about 21.8 lakh central government employees and 52 lakh state government employees are enrolled in the scheme with 82% share in NPS AUM as on April 30, 2021. About 2.82 crore people are enrolled under the Atal Pension Yojana (APY), a government-backed pension scheme for the masses, as on April 30, 2021. The flow of new entrants from the government sector is slowing down due to saturation, and most new entrants are now from corporate sector and APY.

To widen the NPS base, the PFRDA has permitted engagement of individuals who are working as business correspondents or agents within their existing business structure to facilitate the distribution of pension schemes.

# Railways plans ₹56,955-crore spend in five years for signalling, telecom systems

**FE BUREAU** New Delhi, June 15

### Record wheat procurement in UP at 53.8 lakh MT

**DEEPA JAINANI** Lucknow, June 15

INDIA'S LARGEST WHEAT producing state, Uttar Pradesh, has surpassed its previous record in wheat purchasing this year.

As of Tuesday, the state has purchased 53.80 lakh metric tonne (MT) of wheat in the ongoing 2021-22 Rabi marketing year, which is about 15% of the total 360 lakh MT estimated wheat production in the state.

UP's previous record wheat

purchase was 52.92 lakh MT in

2018-19. Last year, around

31.03 lakh MT wheat was procured from the farmers in the same period (till June 14, 2020), while total procurement stood at 35.76 lakh MT. "In spite of the tough situation arising from the second wave of the Covid-19 pandemic, we are purchasing almost 1 lakh MT of wheat

from the farmers," Food and Supply Commissioner Manish Chauhan said. He said UP has so far purwheat worth chased ₹10,626.91 crore from

■ INTERVIEW: TERJE PILSKOG, EVP, Scatec

# 'Retrospective tariff revisions are not investor-friendly'

Norwegian renewables player Scatec has recently signed an agreement with domestic firm Acme Solar for a 50% stake in the latter's upcoming 900 megawatt (MW) power generation assets in Rajasthan. Scatec expects India "to be a key market in the years to come". Terje Pilskog, executive vice president, project development solar and wind, Scatec, tells Anupam **Chatterjee** *how the company is* planning to consolidate its presence in the country. Edited excerpts.

#### What kind of assets are you looking at in India?

Globally, we want to add 12 gigawatt (GW) of renewable energy assets by the end of 2025, and out of that, a few GWs are expected to be in India. We will prefer taking over projects with short construction periods and have secured power purchase agreements (PPAs) with discoms. More mature projects will definitely be more attractive. However, we are also open to bidding for greenfield projects and develop capacities on our own.

Why did Scatec choose India to expand its base?

The country is targeting a

significant growth in renewable energy capacity by 2030 and is a key growth market for renewables. We are positioning for future tenders within solar, wind and hybrids. We will also look into the prospects of building hydro power projects in the country. We see opportunities to offer various largescale solutions across technologies in India, both based on federal and state tenders, as well as through entering into direct PPAs with corporate offtakers. Global investors look for predictability, and policy reforms should aim towards incentivising the industry.

Several states now want to revise solar and wind tariffs discovered earlier with prices falling in recent auctions. What do you have to say to that?

Retrospective tariff revi-

sions are definitely not investor-friendly and disrupt the calculations developers make while bidding for the project and deploying capital. However, this is something that is sadly happening all over the world. Something similar happened in Spain. One may have to take it into account as one of the risks. We are confident that we will be able to manage the situation if the need arises. If such developments take place, we will legally challenge the decisions and adjust our approach to project planning.

Are you also looking to build storage-plus renewableenergy capacities?

Scatec has recently been awarded a 540 MW solar and 225 MW/1,140 MWh battery storage project in South Africa which is one of the largest of its kind in the world. We have shown the capability of building such projects, and if the conditions are right, we can take up similar projects in India as well. However, we want to stick to developing projects and as of now have no plans of building storage or solar equipment manufacturing capacities.

Lucknow

**FE BUREAU** New Delhi, June 15

NATIONAL PENSION SYSTEM (NPS) subscribers with a corpus of up to ₹5 lakh will now be able to withdraw the entire amount upon superannuation/ exit, instead of investing 40% of the amount in lowyield annuities as for other subscribers, according to a Pension Fund Regulatory and Development Authority (PFRDA) notification.

The pension regulator has also enhanced the entry age into NPS from 65 to 70 and exit age from 70 to 75 for all citizen and corporate models. Among other changes, it has permitted individuals to sell NPS products to widen retirement plan coverage.

The full withdrawal facility will benefit a section of government sector and private sector subscribers who have joined NPS late in their lives. Earlier, full withdrawal was allowed if a subscriber's NPS corpus was up to ₹2 lakh. With returns from annuities around 5-5.5%, if a subscriber invests 40% of his corpus of ₹2.5 lakh, she will get a paltry ₹400-450/ month. According to extant norms, at the time of exit from NPS, a subscriber gets 60% lump sum in cash and balance 40% must be used to buy annuities. Since the defined contributory pension system was rolled out from January 1, 2004, to contain the pension bill, about 21.8 lakh central government employees and 52 lakh state government employees are enrolled in the scheme with 82% share in NPS AUM as on April 30, 2021. About 2.82 crore people are enrolled under the Atal Pension Yojana (APY), a government-backed pension scheme for the masses, as on April 30, 2021.

#### Fourfold hike in Jal Jeevan Mission grant to TN

Chennai, June 15

**FE BUREAU** 

THE CENTRAL GOVERN-MENT has increased the central grant to Tamil Nadu under the Jal Jeevan Mission fourfold to ₹3,691.21 crore in 2021-22 from ₹921.99 crore in the previous year. The National Jal Jeevan Mission has released ₹614.35 crore to the state as the first tranche, said a release by the ministry of Jal Shakti.

Union minister Gajendra Singh Shekhawat, while approving the fourfold increase, has assured full assistance to the state to provide tap water supply to every rural home by 2024. Of the 1.26 crore households in Tamil Nadu, 40.36 lakh (31.80%) have been provided tap water connections. On August 15, 2019, when the Jal Jeevan Mission was launched, only 21.65 lakh (17.06%) households had tap water supply. In 22 months, 18.70 lakh (14.74%) households have been provided connections.

The above audited financial results have been reviewed by the Audit Committee and approved by the Board of Directors at their respective meetings held on June 15, 2021

Figures for the quarter ended March 31,2021 and March 31,2020 represents the difference between the audited figures in respect of full financial year and published figures of nine months ended December 31,2020 and December 31, 2019. The COVID-19 outbreak and measures to curtail it has caused significant disturbances and slowdown of economic activity. The company's revenue from operation was affected to the extent mainly due to complete/partial shut down of production in more than one units and due to supply chain constraints, shortage of workforce, Lockdown /shutdown called by local

authorities and with a view to ensure safety across areas of operation of its units. The company has considered the possible impact of COVID-19 in preparation of the above results and will continue to closely monitor any material changes to future economic conditions.

The Company is engaged in only one segment viz. Steel Manufacturing and as such there is no separate reportable segments as per IND AS -108 "Operating Segment".

Figures for the previous periods have been regrouped and/or reclassified to confirm to the classification of the current period, wherever necessary.

The above results are available on the Company's website at www.scansteels.com and BSE website (www.bseindia.com

NOTICE TO SHAREHOLDERS

(Transfer of Equity Shares of the Company to the Investor Education and Protection Fund Authority)

This Notice is published pursuant to the provisions of the Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016, as amended from time to time ("the Rules") The Rules, amongst other matters, contain provisions for transfer

claimed for seven consecutive years or more, in the name of the Investor Education and Protection Fund (IEPF) Authority. Adhering to the various requirements set out in the Rules, the Company has, so far, transferred to the IEPF Authority, on respective due dates, all shares in respect of which dividend(s) for the financial year 2012-13 or before had remained unpaid or unclaimed for a period of seven consecutive years or more. The Company has

now communicated individually, the concerned shareholders

of all shares in respect of which dividend has not been paid or

whose shares are liable to be transferred to IEPF Authority during the financial year 2021-22 for taking appropriate action. The complete details of the concerned shareholders whose dividends are unclaimed for seven consecutive years and whose shares are due for transfer to IEPF Authority are being uploaded on the Company's website www.goacarbon.com In case the dividends are not claimed by the concerned

shareholder(s) by 8th October 2021, necessary steps will be initiated by the Company to transfer shares held by the concerned shareholder(s) to IEPF Authority without further notice in the following manner:

In case the shares are held:

% In physical form - New share certificate(s) will be issued and transferred in favour of IEPF Authority on completion of necessary formalities. The original share certificate(s) which stand registered in the name of shareholder will be deemed cancelled and non-negotiable.

% In demat form - The Company shall inform the Depository by way of corporate action for transfer of shares lying in the demat account in favour of IEPF.

The shareholders may note that in the event of transfer of shares and the unclaimed dividends to IEPF, concerned shareholder(s) are entitled to claim the same from IEPF by submitting an online application in the prescribed Web Form IEPF-5 available on the website www.iepf.gov.in and sending a physical copy of the same, duly signed to the Company at its Registered Office along with requisite documents enumerated in Web Form IEPF- 5.

The shareholders may further note that the details of unclaimed dividends and shares of the concerned shareholder(s) uploaded by the Company on its website www.goacarbon.com shall be treated as adequate notice in respect of issue of the new share certificate(s) by the Company for the purpose of transfer of shares to IEPF pursuant to the Rules. Please note that no claim shall lie against the Company in respect of unclaimed dividend and equity shares transferred to the IEPF Authority. In case the shareholders have any queries on the subject

matter and the Rules, they may contact our RTA, Link Intime India Private Limited, Unit: Goa Carbon Limited, C-101, 247 Park, L. B. S. Marg, Vikhroli (West), Mumbai 400083; Tel: +91-22-49186270; Email: iepf.shares@linkintime.co.in

## **NPS** subscribers with corpus up to ₹5L can withdraw

NATIONAL PENSION SYSTEM (NPS) subscribers with a corpus of up to ₹5 lakh will now be able to withdraw the entire amount upon superannuation/exit, instead of investing 40% of the amount in lowyield annuities as for other subscribers, according to a Pension Fund Regulatory and Development Authority (PFRDA) notification.

also enhanced the entry age into NPS from 65 to 70 and exit age from 70 to 75 for all citizen and corporate models. Among other changes, it has permitted individuals to sell NPS products to widen retirement plan coverage.

# grant to TN

**FE BUREAU** Chennai, June 15

**MENT** has increased the central grant to Tamil Nadu under the Jal Jeevan Mission fourfold to ₹3,691.21 crore in 2021-22 from ₹921.99 crore in the previous year. The National Jal Jeevan Mission has released ₹614.35 crore to the state as the first tranche, said a release by the ministry of Jal Shakti.

# entire sum **FE BUREAU** New Delhi, June 15

The pension regulator has

The full withdrawal facility will benefit a section of government sector and private sector subscribers who have joined NPS late in their lives. Earlier, full withdrawal was allowed if a subscriber's NPS corpus was up to ₹2 lakh. With returns from annuities around 5-5.5%, if a subscriber invests 40% of his corpus of ₹2.5 lakh, she will get a paltry ₹400-450/ month. According to extant norms, at the time of exit from NPS, a subscriber gets 60% lump sum in cash and balance 40% must be used to buy annuities. Since the defined contributory pension system was rolled out from January 1, 2004, to contain the pension bill, about 21.8 lakh central government employees and 52 lakh state government employees are enrolled in the scheme with 82% share in NPS AUM as on April 30, 2021. About 2.82 crore people are enrolled under the Atal Pension Yojana (APY), a government-backed pension scheme for the masses, as on April 30, 2021.

## Fourfold hike in Jal Jeevan Mission

THE CENTRAL GOVERN-

Union minister Gajendra Singh Shekhawat, while approving the fourfold increase, has assured full assistance to the state to provide tap water supply to every rural home by 2024. Of the 1.26 crore households in Tamil Nadu, 40.36 lakh (31.80%) have been provided tap water connections. On August 15, 2019, when the Jal Jeevan Mission was launched, only 21.65 lakh (17.06%) households had tap water supply. In 22 months, 18.70 lakh (14.74%) households have been provided connections.

	Diluted	4.52	1.27	(1.10)	5.87	0.06

The above audited financial results have been reviewed by the Audit Committee and approved by the Board of Directors at their respective meetings held on June 15, 2021

Figures for the guarter ended March 31,2021 and March 31,2020 represents the difference between the audited figures in respect of full financial year and published figures of nine months ended December 31,2020 and December 31, 2019. The COVID-19 outbreak and measures to curtail it has caused significant disturbances and slowdown of economic activity. The company's revenue from operation was affected to the extent mainly due to complete/partial shut down of production in more than one units and due to supply chain constraints, shortage of workforce, Lockdown /shutdown called by local authorities and with a view to ensure safety across areas of operation of its units.

The company has considered the possible impact of COVID-19 in preparation of the above results and will continue to closely monitor any material changes to future economic conditions The Company is engaged in only one segment viz. Steel Manufacturing and as such there is no separate reportable

segments as per IND AS -108 "Operating Segment". Figures for the previous periods have been regrouped and/or reclassified to confirm to the classification of the curren

The above results are available on the Company's website at www.scansteels.com and BSE website (www.bseindia.com) For and on behalf of the Board of Directo For Scan Steels Limited

#### NOTICE TO SHAREHOLDERS

(Transfer of Equity Shares of the Company to the Investor Education and Protection Fund Authority)

This Notice is published pursuant to the provisions of the Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016, as amended from time to time

The Rules, amongst other matters, contain provisions for transfer of all shares in respect of which dividend has not been paid or claimed for seven consecutive years or more, in the name of the Investor Education and Protection Fund (IEPF) Authority.

Adhering to the various requirements set out in the Rules, the Company has, so far, transferred to the IEPF Authority, on respective due dates, all shares in respect of which dividend(s) for the financial year 2012-13 or before had remained unpaid or unclaimed for a period of seven consecutive years or more. The Company has now communicated individually, the concerned shareholders whose shares are liable to be transferred to IEPF Authority during the financial year 2021-22 for taking appropriate action. The complete details of the concerned shareholders whose dividends are unclaimed for seven consecutive years and whose shares are due for transfer to IEPF Authority are being uploaded on the Company's website www.goacarbon.com

In case the dividends are not claimed by the concerned shareholder(s) by 8th October 2021, necessary steps will be initiated by the Company to transfer shares held by the concerned shareholder(s) to IEPF Authority without further notice in the following manner:

In case the shares are held:

% In physical form - New share certificate(s) will be issued and transferred in favour of IEPF Authority on completion of necessary formalities. The original share certificate(s) which stand registered in the name of shareholder will be deemed cancelled and non-negotiable.

% In demat form - The Company shall inform the Depository by way of corporate action for transfer of shares lying in the demat account in favour of IEPF.

The shareholders may note that in the event of transfer of shares and the unclaimed dividends to IEPF, concerned shareholder(s) are entitled to claim the same from IEPF by submitting an online application in the prescribed Web Form IEPF-5 available on the website www.iepf.gov.in and sending a physical copy of the same, duly signed to the Company at its Registered Office along with requisite documents enumerated in Web Form IEPF- 5.

The shareholders may further note that the details of unclaimed dividends and shares of the concerned shareholder(s) uploaded by the Company on its website www.goacarbon.com shall be treated as adequate notice in respect of issue of the new share certificate(s) by the Company for the purpose of transfer of shares to IEPF pursuant to the Rules. Please note that no claim shall lie against the Company in respect of unclaimed dividend and equity shares transferred to the IEPF Authority. In case the shareholders have any queries on the subject

matter and the Rules, they may contact our RTA, Link Intime India Private Limited, Unit: Goa Carbon Limited, C-101, 247 Park, L. B. S. Marg, Vikhroli (West), Mumbai 400083; Tel: +91-22-49186270; Email: iepf.shares@linkintime.co.in
